Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

- (b) the abandonment or destruction of the insured crop or any part thereof.

(2) The final date for the harvesting referred to in subparagraph 1 is the 15th day of October or such other date as may be determined from time to time by the Commission.

(3) Where the harvesting of any planted acreage is not completed on the date prescribed by subparagraph 2, the insured person shall forthwith notify the Commission in writing.

(4) Where an insured person fails to notify the Commission in accordance with subparagraph 3, no indemnity shall be paid in respect of the unharvested acreage.

MISREPRESENTATION, VIOLATION OF CONDITIONS OR FRAUD

5. Where the insured person,

- (a) in his application for insurance,
 - (i) gives false particulars of the insured crop to the prejudice of the Commission, or
 - (ii) knowingly misrepresents or fails to disclose any fact required to be stated therein;
- (b) contravenes a term or condition of the contract of insurance;
- (c) commits a fraud in respect of the insured crop; or
- (d) wilfully makes a false statement in respect of a claim under the contract of insurance,

a claim by the insured person is invalid and his right to recover indemnity is forfeited.

WAIVER OR ALTERATION

6. No term or condition of this contract shall be deemed to be waived or altered in whole or in part by the Commission unless the waiver or alteration is clearly expressed in writing signed by the Commission or a representative authorized for that purpose by the Commission.

INTEREST OF OTHER PERSONS

7. Notwithstanding that a person other than the insured person holds an interest of any kind in the insured crop, for the purposes of this contract,

- (a) the interest of the insured person in the insured crop is deemed to be the full value of the total guaranteed production; and
- (b) except as provided in paragraph 18, no indemnity shall be paid to any person other than the insured person.

ASSIGNMENT OF RIGHT TO INDEMNITY

8. The insured person may assign all or part of his right to indemnity under this contract in respect of the insured crop but an assignment is not binding on the Commission and no payment of indemnity shall be made to an assignee unless,

- (a) the assignment is made on a form provided by the Commission; and
- (b) the Commission consents thereto in writing.

EVALUATION OF LOSS

9.—(1) Where the planting of three acres or more of lima beans before the final planting date is prevented by one or more of the designated perils, an indemnity shall be paid in respect of each unplanted acre calculated on the basis of 20 per cent of the guaranteed production per acre multiplied by the established price per ton.

(2) Any acreage in respect of which an indemnity is paid under subparagraph 1 shall be released from the contract of insurance, the guaranteed production and indemnity payable shall be reduced accordingly and the production from any such acreage planted to lima beans after the final planting date shall not be taken into account in calculating the average farm yield.

10.—(1) Where loss or damage to three acres or more of the insured crop occurs at any time following the planting of the insured crop or any part thereof, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

- (a) the replanting of the damaged acreage, provided that the replanting is completed not later than the 1st day of July;
- (b) the use of the damaged acreage for an alternate crop; or
- (c) the abandonment or destruction of the insured crop on such damaged acreage.

(2) Where the damaged acreage is replanted to lima beans in accordance with clause *a* of subparagraph 1, the Commission shall pay to the insured person a supplementary benefit of \$15 for each acre replanted and the contract of insurance shall continue to apply to such replanted acreage.

(3) Where the damaged acreage is used for an alternate crop in accordance with clause *b* of subparagraph 1, the Commission shall pay to the insured person a supplementary benefit of \$15 for each acre replanted, the replanted acreage shall be released from the contract of insurance and the guaranteed production and indemnity payable shall be reduced accordingly.

11.—(1) Where harvesting has been completed, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per ton.

(2) For the purpose of subparagraph 1, actual production shall include,

- (a) production delivered to and accepted by a processor;
- (b) production delivered to and rejected by a processor unless the rejection resulted from a cause of loss designated in the plan;
- (c) production harvested but not delivered to a processor; and
- (d) potential production of wholly or partially unharvested acreage unless the failure to harvest resulted from a cause of loss designated in the plan.

NOTICE OF LOSS OR DAMAGE

12.—(1) Where loss or damage to the insured crop results from one or more of the perils insured against and the insured person intends to abandon or destroy the insured crop, or to replant or use the planted acreage for another purpose, the insured person shall notify the Commission in writing of such intention and shall take no further action without the consent in writing of the Commission.

(2) Where loss or damage to the insured crop results from one or more of the perils insured against and the damage was occasioned at a readily ascertainable time, the insured person shall notify the Commission in writing within twenty-four hours of such time.

(3) Where loss or damage to the insured crop results from one or more of the perils insured against and it appears, or ought reasonably to appear, to the insured person at any time after planting and

before the completion of harvesting of the insured crop that the potential production of the insured crop is less than the total guaranteed production, the insured person shall, as soon as the loss or damage is apparent, notify the Commission in writing forthwith.

(4) Notwithstanding any notice given by the insured person under this paragraph, where on completion of harvesting of the insured crop,

- (a) the actual production is less than the total guaranteed production; and
- (b) the loss resulted from one or more of the perils insured against,

the insured person shall notify the Commission in writing forthwith.

ABANDONMENT, DESTRUCTION OR ALTERNATE USE

13.—(1) Acreage planted to the insured crop shall not be put to another use and the insured crop shall not be abandoned or destroyed until the Commission has appraised the potential production of the acreage.

(2) An appraisal made under subparagraph 1 shall not be taken into account in the final adjustment of loss where the insured person harvests the appraised acreage.

ADJUSTMENT OF LOSS

14.—(1) The indemnity payable for loss or damage to the insured crop shall be determined in the manner prescribed by this contract.

(2) The Commission may cause the production of the insured crop to be appraised by any method that it considers proper.

(3) No indemnity shall be paid for a loss in respect of the insured crop unless the insured person establishes,

- (a) the actual production obtained from the insured crop for the crop year; and
- (b) that the loss in production or part thereof resulted directly from one or more of the perils insured against.

(4) Where a loss in production resulted partly from a peril insured against and partly from a cause of loss not insured against, the Commission shall determine the amount of the loss that resulted from the cause of loss not insured against, and the indemnity payable by the Commission under this contract shall be reduced accordingly.

(5) The indemnity payable with respect to the total planted acreage in the final adjustment of loss shall be the sum of all loss calculations appli-

cable to such acreage, but where the actual production of any harvested acreage exceeds the guaranteed production of such acreage, the indemnity otherwise payable for a loss in production shall be reduced by the amount obtained by multiplying such excess by the established price per ton.

PROOF OF LOSS

15.—(1) A claim for indemnity in respect of the insured crop shall be made on a proof of loss form provided by the Commission and shall be filed with the Commission not later than sixty days after,

- (a) the completion of harvesting of the insured crop; or
- (b) the end of the crop year,

whichever is the earlier.

(2) Subject to subparagraph 3, a claim for indemnity shall be made by the insured person.

(3) A claim for indemnity may be made,

- (a) in the case of the absence or inability of the insured person, by his agent; or
- (b) in the case of the absence or inability of the insured person or on his failure or refusal to do so, by an assignee under an assignment made in accordance with paragraph 8.

(4) Where required by the Commission, the information given in a proof of loss form shall be verified by statutory declaration.

ARBITRATION

16. Where the Commission and the insured person fail to resolve any dispute respecting the adjustment of a loss under this contract, the matter shall be determined by arbitration in accordance with the regulations.

TIME FOR PAYMENT OF INDEMNITY

17.—(1) No indemnity under this contract becomes due and payable until,

- (a) the end of the crop year; and
- (b) the premium has been paid in full.

(2) Where the indemnity payable by the Commission under this contract is established by the filing of a proof of loss form or by an award of an arbitrator or board of arbitration, it shall be paid within sixty days of the receipt by the Commission of the proof of loss form or award, as the case may be.

(3) Nothing in this paragraph prevents the Commission from paying indemnity under this contract at an earlier date.

SUBROGATION

18. Where the Commission has paid a claim under this contract, the Commission is subrogated to the extent thereof to all rights of recovery of the insured person against any person and may bring action in the name of the insured person to enforce those rights.

RIGHT OF ENTRY

19. The Commission has a right of entry to the premises of the insured person that may be exercised by agents of the Commission at any reasonable time or times for any purpose related to the contract of insurance.

NOTICE

20.—(1) Any written notice to the Commission shall be given by delivery thereof or by sending it by mail to the Commission.

(2) Written notice to the insured person shall be given by delivery thereof or by sending it by mail addressed to him at his last post office address on file with the Commission.

NOW THEREFORE, subject to *The Crop Insurance Act (Ontario)* and the regulations made thereunder, where in a crop year the insured person suffers a loss resulting from one or more of the perils designated in the plan, the Commission, subject to the terms and conditions hereinafter set forth, agrees to indemnify the insured person in respect of such loss.

TERMS AND CONDITIONS

CAUSES OF LOSS NOT INSURED AGAINST

- (a) the negligence, misconduct or poor farming practices of the insured person or his agents or employees;
- (b) a shortage of labour or machinery;
- (c) insect infestation or plant disease unless recommended spray programs were followed; or
- (d) a peril other than the perils designated in the plan.

EXTENT OF INSURANCE

2.—(1) The insured person shall offer for insurance all acreage planted in the crop year to the insured crop on the farm or farms operated by him in Ontario, and, subject to subparagraph 2, this contract applies to all such acreage under contract to the processor named in the application for insurance herein.

(2) This contract does not apply to, and no indemnity is payable in respect of, acreage planted to the insured crop,

- (a) that was not adequately prepared for cropping purposes;
- (b) that was planted after the final date prescribed for planting in the plan;
- (c) that, in the opinion of the Commission, is not insurable;
- (d) for which a contract between the insured person and the processor is not in effect; or

VARIATIONS IN PLANTED ACREAGE

3.—(1) Where the acreage planted by the insured person in the crop year is not the same as that stated in the application for insurance, the insured person shall, not later than the 15th day of July, notify the Commission in writing of the actual acreage planted.

(2) Where the actual planted acreage of the insured crop is less than that stated in the application for insurance, the maximum amount of indemnity shall be reduced proportionately.

(3) Where the actual planted acreage of the insured crop is more than that stated in the application for insurance, the maximum amount of indemnity and the premium payable shall not be increased but the income from the total planted acreage shall be included in establishing the production of the insured person unless the processor increases the contract acreage accordingly.

HARVESTING OF PLANTED ACREAGE

4.—(1) All acreage planted to the insured crop in the crop year shall be harvested as green and wax beans for processing unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the planted acreage or any part thereof for another purpose; or
- (b) the abandonment or destruction of the insured crop or any part thereof.

(2) The final date for the harvesting referred to in subparagraph 1 is the 15th day of September or such other date as may be determined from time to time by the Commission.

(3) Notwithstanding subparagraph 1, where all or any part of the insured acreage is by-passed due to an insured peril, the Commission, upon application therefor in writing by the insured person, may consent in writing to the release from the contract of insurance of the by-passed acreage and adjust the loss on such acreage without regard to the production of any remaining acreage.

(4) Notwithstanding subparagraph 1, the indemnity payable in respect of by-passed acreage shall be calculated on the basis of the by-passing record of the processor to whom the crop is contracted in accordance with the Table.

MISREPRESENTATION, VIOLATION OF CONDITIONS OR FRAUD

7. Where the insured person,

- (a) in his application for insurance,
 - (i) gives false particulars of the insured crop to the prejudice of the Commission, or

- (b) contravenes a term or condition of the contract of insurance;
- (c) commits a fraud in respect of the insured crop; or

a claim by the insured person is invalid and his right to recover indemnity is forfeited.

WAIVER OR ALTERATIONS

8. No term or condition of this contract shall be deemed to be waived or altered in whole or in part by the Commission unless the waiver or alteration is clearly expressed in writing signed by the Commission or a representative authorized for that purpose by the Commission.

INTEREST OF OTHER PERSONS

9. Notwithstanding that a person other than the insured person holds an interest of any kind in the insured crop, for the purposes of this contract,

- (a) the interest of the insured person in the insured crop is deemed to be the full value of the crop;
- (b) except as provided in paragraph 10, no indemnity shall be paid to any person other than the insured person.

ASSIGNMENT OF RIGHT TO INDEMNITY

10. The insured person may assign all or part of his right to indemnity under this contract in respect of the insured crop but an assignment is not binding on the Commission and no payment of indemnity shall be made to an assignee unless,

- (a) the assignment is made on a form provided by the Commission; and
- (b) the Commission consents thereto in writing.

NOTICE OF LOSS OR DAMAGE

11.—(1) Where loss or damage to the insured crop results from one or more of the perils insured against and the insured person intends to abandon or destroy the insured crop, or to replant or use the planted acreage for another purpose, the insured person shall notify the Commission in writing of such intention and shall take no further action without the consent in writing of the Commission.

(2) Where loss or damage to the insured crop results from one or more of the perils insured against and the damage was occasioned at a readily ascertainable time, the insured person shall notify the Commission forthwith by telephone and shall confirm in writing within twenty-four hours of such time.

(3) Where loss or damage to the insured crop results from one or more of the perils insured against and it appears, or ought reasonably to appear to the insured person at any time after planting and before the completion of harvesting of the insured crop that the potential production of the insured crop has a value less than the total

insured coverage, the insured person shall, as soon as the loss or damage is apparent, notify the Commission in writing forthwith.

(4) Notwithstanding any notice given by the insured person under this paragraph, where on completion of harvesting of the insured crop,

(a) the actual production is less than the total guaranteed production; and

(b) the loss resulted from one or more of the perils insured against,

the insured person shall notify the Commission in writing forthwith.

(2) An appraisal made under subparagraph 1 shall not be taken into account in the final adjustment of loss where the insured person harvests the appraised acreage as green and wax beans for processing.

ADJUSTMENT OF LOSS

14.—(1) The indemnity payable for loss or damage to the insured crop shall be determined in the manner prescribed by this contract.

(2) The Commission may cause the production of the insured crop to be appraised by any method that it deems proper.

(3) No indemnity shall be paid for a loss in respect of the insured crop unless the insured person establishes,

(a) the actual production obtained from the insured crop for the crop year; and

(b) that the loss in production or part thereof resulted directly from one or more of the perils insured against.

(4) Where a loss in production resulted partly from a peril insured against and partly from a cause of loss not insured against, the Commission shall determine the amount of the loss that resulted from the cause of loss not insured against, and the indemnity payable by the Commission under this contract shall be reduced accordingly.

(5) The indemnity payable with respect to the total planted acreage in the final adjustment of loss shall be the sum of all loss calculations applicable to such acreage, but where the actual production of any harvested acreage exceeds the guaranteed production of such acreage, the indemnity otherwise payable for a loss in production shall be reduced by the amount obtained by multiplying such excess by the established price per ton.

PROOF OF LOSS

15.—(1) A claim for indemnity in respect of the insured crop shall be made on a proof of loss form provided by the Commission and shall be filed with the Commission not later than sixty days after,

(a) the completion of harvesting of the insured crop; or

(b) the end of the crop year,

whichever is the earlier.

(2) Subject to subparagraph 3, a claim for indemnity shall be made by the insured person.

(3) A claim for indemnity may be made,

(a) in the case of the absence or inability of the insured person, by his agent; or

(a) the end of the crop year; and

(b) the premium has been paid in full.

(2) Where the indemnity payable by the Commission under this contract is established by the filing of a proof of loss form or by an award of an arbitrator or board of arbitration, it shall be paid within sixty days of the receipt by the Commission of the proof of loss form or award, as the case may be.

The Crop Insurance Act (Ontario)

SEED CORN ENDORSEMENT

WHEREAS the insured person has applied for crop insurance for seed corn under The Ontario Crop Insurance Plan for Seed Corn, hereinafter referred to as "the plan", and has paid the deposit premium prescribed thereunder;

NOW THEREFORE, subject to *The Crop Insurance Act (Ontario)* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover seed corn.

HARVESTING OF SEEDED ACREAGE

1.—(1) All acreage seeded to seed corn shall be harvested as seed corn unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the seeded acreage or any part thereof for another purpose; or

- (b) the abandonment or destruction of the insured crop or any part thereof.

(2) Where,

- (a) pursuant to subparagraph 1, any seeded acreage is used for a purpose other than harvesting as seed corn; or

- (b) the harvesting of any seeded acreage was prevented by reason of a cause of loss not insured against,

the Commission shall determine the potential production and such potential production shall be taken into account in the final adjustment of loss.

STAGE 1

2.—(1) Stage 1 comprises the period from the date on which the seeding of acreage to seed corn is completed to and including the 15th day of June in the crop year.

(2) Where loss or damage occurs in Stage 1, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

- (a) the reseeded of the damaged acreage; or
(b) the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where the damaged acreage is reseeded to seed corn in accordance with clause *a* of subparagraph 2, the contract of insurance shall continue to apply to such reseeded acreage.

(4) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with clause *b* of subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying,

- (a) 50 per cent of the guaranteed production for the damaged acreage; or
(b) the difference between the guaranteed production and the potential production determined under clause *b* of subparagraph 2 for the damaged acreage,

whichever is the lesser, by the established price.

(5) Where the damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 4 shall not be taken into account in the final adjustment of loss.

(6) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and to calculate the amount of loss in the manner prescribed in subparagraph 4 with respect to such damaged acreage and, where notice of such intention has been given, the Commission shall calculate accordingly the amount of loss to be taken into account in the final adjustment of loss and the value of the insured crop on such damaged acreage shall not progress beyond Stage 1.

STAGE 2

3.—(1) Stage 2 commences on the 16th day of June in the crop year and, with respect to any part of the seeded acreage, ends with the completion of harvesting of such part.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where,

- (a) damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 2; or
- (b) the harvesting of any seeded acreage is not completed and the harvesting was prevented by reason of a cause of loss not insured against,

the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying,

- (i) the guaranteed production for the damaged or unharvested acreage, as the case may be, or
- (ii) the amount by which the guaranteed production exceeds the potential production for the damaged or unharvested acreage,

whichever is the lesser, by the established price.

(4) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

(5) Where the actual production of the acreage harvested is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price.

SALVAGE

4. Where, as the result of an insured peril, the insured crop or any part thereof is suitable only for feed, the amount of loss that shall be taken into account in the final adjustment of loss shall be the amount by which the liability under this plan for the damaged acreage exceeds the actual production for the damaged acreage multiplied by the highest established price for grain corn under The Ontario Crop Insurance Plan for Corn.

FINAL ADJUSTMENT OF LOSS
FOR TOTAL SEEDED ACREAGE

5. The indemnity payable with respect to the total seeded acreage in the final adjustment of loss shall be the sum of all loss calculations applicable to such acreage, but where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable in respect of any loss calculations shall be reduced by the amount obtained by multiplying such excess by the established price per bushel.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

(2) Where, after the final planting date, one or more acres is seeded to an alternate crop, an indemnity may be paid in respect of each acre so seeded calculated on the basis of 10 per cent of the guaranteed production per acre multiplied by the established price per ton.
(3) Any acreage in respect of which an indemnity is paid under subparagraph 1 or 2 shall be released from the contract of insurance and, in such case, the guaranteed production and indemnity payable shall be reduced accordingly.

17.—(1) Where the insured person is unable to plant by reason of one or more of the insured perils and, as a result, plants are lost in storage, the coverage provided and the maximum indemnity payable under the contract of insurance shall be increased by an additional \$80 per acre on the following terms and conditions:

1. A minimum of one acre of the contract acreage must remain unplanted after the final date for planting in the area.
2. Failure to plant must result directly from one or more of the perils of excessive moisture, flood or such other agricultural hazard as may be designated by the Commission from time to time.
3. The indemnity payable shall be the lesser of,

- (a) the actual cost of the plants lost;
- (b) the projected cost of plants for the unplanted acreage at the same plant population as the planted acreage; or
- (c) \$80 per acre.

(2) Where the insured person harvests mechanically and has paid the premium surcharge provided therefor, he may select a lost plants benefit of a maximum of \$120 per acre under subparagraph 1.

18. Where, by reason of one or more of the insured perils, plants are lost in storage but the contract acreage is subsequently planted with replacement stock, a lost plants benefit shall be payable upon the following terms and conditions:

1. An indemnity shall be payable only in respect of plants lost in excess of 10 per cent of the plants required for the total contract acreage.

70

Actual harvesting cost per ton + 50

20a.—(1) Where the actual production of the insured acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per ton.

(2) For the purpose of subparagraph 2, actual production shall include,

- (a) production delivered to and accepted by a processor;
- (b) production delivered to and rejected by a processor unless the rejection resulted from a cause of loss designated in the plan;

20b. The indemnity payable with respect to the total planted acreage shall be the sum of all loss calculations applicable to such acreage, but where the actual production of any acreage, as determined under paragraph 20a exceeds the guaranteed production of such acreage, the indemnity otherwise payable for a loss in production shall be reduced by the amount obtained by multiplying such excess by the established price per ton.

DURATION OF CONTRACT

8.—(1) A contract of insurance shall be in force for the crop year in respect of which it is made unless it is terminated in accordance with the regulations.

(2) Notwithstanding subsection 1, the contract does not insure against and no indemnity shall be paid in respect of any loss or damage which occurs prior to noon on the 24th day of May in the crop year.

COVERAGE

9.—(1) The coverage provided in each crop year under a contract of insurance shall be 80 per cent of the average farm yield in pounds of the insured person based on the production records of the insured person multiplied by the number of insured acres.

(2) The number of pounds determined under subsection 1 constitutes the total guaranteed production under a contract of insurance.

(3) Where in the opinion of the Commission the insured person cannot provide adequate production records, the average farm yield shall be determined by the Commission on such other basis as it may approve.

10. The maximum amount for which the Commission is liable for a loss in production under a contract of insurance shall be the amount obtained by multiplying the total guaranteed production determined under section 9 by the established price per pound prescribed in section 11.

Form 1

The Crop Insurance Act (Ontario)

BURLEY TOBACCO ENDORSEMENT

WHEREAS the insured person has applied for crop insurance for burley tobacco under The Ontario Crop Insurance Plan for Burley Tobacco, hereinafter referred to as "the plan", and has paid the deposit premium prescribed thereunder;

NOW THEREFORE, subject to *The Crop Insurance Act (Ontario)* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover burley tobacco.

HARVESTING OF PLANTED ACREAGE

1. All acreage planted to burley tobacco in a crop year shall be harvested unless the Commission, upon application therefore in writing, consents in writing to,

- (a) the use of the planted acreage or any part thereof for another purpose; or
- (b) the abandonment or destruction of the insured crop or any part thereof.

EVALUATION OF LOSS

2.—(1) Where loss or damage occurs at any time after the completion of planting, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

- (a) replanting of the damaged acreage and, in such case, the replanting shall be completed not later than the 15th day of June in the crop year or not later than such other date as may be determined from time to time by the Commission; or
 - (b) the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.
- (2) Where the damaged acreage is replanted to the insured crop in accordance with clause a of subparagraph 1, the contract of insurance shall continue to apply to such replanted acreage.
- (3) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with clause b of subparagraph 1, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production and the potential production for the damaged acreage by the established price per pound.
- (4) Where the damaged acreage is not used for any other purpose or the crop is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.
- (5) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per pound.
- (6) Where, as a result of barn burn, the insured crop or any part thereof is reduced in market value, the actual yield of the crop or part thereof

so damaged shall be deemed to be reduced in the ratio of the price received to the average price paid for burley tobacco in respect of the crop year.

FINAL ADJUSTMENT OF LOSS FOR
TOTAL PLANTED ACREAGE

3. The indemnity payable with respect to the total planted acreage in the final adjustment of loss shall be the sum of all loss calculations applicable to such acreage, but where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable shall be reduced by the amount obtained by multiplying such excess by the established price per pound.

VARIATION IN PLANTED ACREAGE

4. Where the actual planted acreage of the insured crop is less than the acreage stated in the application, the insured person shall, not later than the 1st day of August, notify the Commission in writing and the total guaranteed production and the maximum amount of indemnity shall be reduced proportionately.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

COUNTY OF FRONTENAC

To Wit:

BY VIRTUE OF A WARRANT issued by the Warden under the seal of the County of Frontenac, to me directed, dated the 3rd day of July, 1975, commanding me to levy upon and sell the lands mentioned in the following list for arrears of taxes and costs due thereon, I hereby give notice that unless such arrears of taxes and costs are sooner paid, I shall, pursuant to the provisions of *The Municipal Act*, proceed to sell by public auction at the Court House, Kingston, on the 5th day of November, 1975, at the hour of 1.00 o'clock in the afternoon, and further take notice that an adjourned sale, if necessary, will be held at the same place, at the same hour on the 19th day of November, 1975.

Ticket Limits: One way ticket good until the cancellation date of this tariff. Return tickets leaving point of origin up to the date of cancellation of this tariff will be valid for 15 days.

Ticket Marking: Tickets sold on an interline basis to or from the routes of Voyageur Colonial Ltd., are to be marked EX-114 also "A", "B" or "C" to indicate the date of travel and rate used. Local tickets wholly for travel on Voyageur Colonial routes, sold on NCR machines should be marked "SP" on low fare days shown on the calendar that week, i.e.: Monday to Wednesday or Monday to Thursday etc., when the low fare is indicated; other days the regular "OW" and "RT" designation should be used. (Note: Toronto NCR tickets only will be marked "EX" to designate the low fare that week.) Local coupon tickets wholly for travel on Voyageur Colonial Routes should be marked "SP" on low fare days shown on the calendar that week, i.e.: Monday to Wednesday or Monday to Thursday etc., when the low fare is indicated.

One coupon **ONLY** is required for travel on Voyageur Colonial routes. If a stopover is requested, then extra coupons are required covering the stopovers.

Excepting the Special Fares listed in this tariff, please use the regular Voyageur Colonial Tariff No. 4 between all stations on Voyageur Colonial Routes, unless an EX — 114 fare or combination of an EX — 114 fare and/or regular fare provides a lower fare.

Intermediate point agents using EX — 114 tariff should show how fare was computed on their audit stub, and make out the ticket coupons from point of origin to destination, not from fare points used. No local fare between points named may exceed the EX — 114 fare as quoted.

These special fares are not to be used to construct fares to or through United States points, or to construct any special fares such as Commercial, Clergy, Party rates, etc., but may be used to construct regular fares beyond our lines in Canada.

Some fares in this tariff are shown at regular tariff rates.

Issued September 7th, 1972 — Émis le 7 septembre 1972

Effective June 1st, 1973 — En vigueur le 1^{er} juin 1973

EXPLICATIONS DU TARIF EX-114

- * — Droit de passage inclus dans ces taux.
- OW — Billet simple
- RT — Billet de retour
- "A", "B", "C" — Tarif valide de 6.00 a.m. à 6.00 a.m. le jour du voyage tel qu'indiqué sur le calendrier.

En vigueur: Du 1^{er} juin 1973 jusqu'à annulation.

Taux pour enfants: Moitié du prix adulte, selon les règlements stipulés dans le tarif régulier No. 4

Arrêts en cours de route: Privilèges habituels.

Durée des billets: Les billets simples seront valables jusqu'à la date d'annulation de ce tarif. Les billets de retour procurés d'ici la date d'annulation de ce tarif seront valables pour une durée de 15 jours additionnels.

Indication sur billets: Tout billet inter-ligne vendu, allant vers ou venant de toutes les routes de Voyageur Colonial Ltd. doit être inscrit EX-114 et "A", "B" ou "C" indiquant ainsi la date du voyage et le prix utilisé. Les billets "NCR" vendus et utilisés exclusivement sur les routes de Voyageur Colonial Ltd. doivent être inscrits "SP" pour les voyages durant les jours à taux réduits, soit du lundi au mercredi ou du lundi au jeudi selon la semaine, tel que l'indique le calendrier. Les autres jours, l'inscription "OW" et "RT" sera employée. (A noter: Les billets "NCR" de Toronto seulement seront inscrits "EX" pour désigner les jours à prix réduits). Les billets-coupons utilisés exclusivement sur les routes de Voyageur Colonial doivent être inscrits "SP" pour les jours à prix réduits tels qu'indiqués sur le calendrier, soit du lundi au mercredi ou du lundi au jeudi selon la semaine, lorsque le prix réduit est indiqué.

UN SEUL coupon est requis pour voyager sur les routes de Voyageur Colonial. Des coupons de surplus seront requis s'il y a arrêts en cours de route.

Exception faite des taux spéciaux indiqués dans ce tarif, veuillez utiliser le tarif Voyageur Colonial No. 4 entre toutes stations sur les routes de Voyageur Colonial. Ceci, à moins que le tarif EX — 114 seul ou combiné avec le tarif régulier No. 4 ne procure un taux moins élevé.

Les agents, aux endroits intermédiaires, doivent montrer la structure du parcours du billet sur le coupon de vérification (audit stub). Les points d'origines et de destinations doivent être indiqués sur le billet. Le prix entre deux endroits ne devrait jamais excéder le prix du tarif EX — 114 entre les deux mêmes endroits.

Certains taux dans ce tarif sont les taux du tarif régulier No. 4.

Le tarif EX — 114 ne peut être utilisé sur un trajet se rendant aux États-Unis, mais peut être utilisé pour tout endroit au Canada. Les taux spéciaux tels que clergé, commercial, ou de groupe ne s'appliquent pas à ce tarif.
